Good Morning,

Quick update on this gloomy Monday morning, we have light snow flurries in most of our service areas with scattered flurries and significant drop in temperatures overnight.

Our Plan of Action

- Our walks teams will be heading out shortly to do a salting as we are seeing snow squalls for the next 3 days.
- Our salt trucks will be going out overnight to do a salt run of all throughways and parking.

These runs are done as a precautionary measure as wet services combined with a drop in temperature is a recipe for ice!

We will continue to monitor the radar closely and deploy further assets when and if required.

As a reminder our snow contact email is snow.waterdown@gelderman.com or you may also email me directly.(I receive both) call 905.689.6324 (after hours) 289.775.8840 (business hours)

Stay Safe Everyone!

Suzanne Pestano
